ČESKÉ REPUBLIKY

Towards eEnvironment eGovernment in the CR

Ondřej Felix
e Government chief architect,
Ministry of the Interior

A modified approach to the possibilities of ICT use in public administration

eGon

- Systems and comprehensive approach
- Simple and intuitive presentation
- Expression through symbols

Egon = Egovernment in the CR

Public administration as a living organism:

- **heart** – eGovernment Act
- **brain** – Public administration basic registers
- **circulatory system** – Public administration communication infrastructure
- **fingers** – public administration contact points

eGon`s Functionalities

KIVS

eGon`s Functionalities

**Together we save
over CZK 270 million**

eGon`s Functionalities

- KIVS significantly promotes co-ordination of individual components of public administration in the process of the use and development of the communication infrastructure, resulting in a more efficient use of public (state) funds in this area
- We prepare a 3rd tender before the end of the general contract
- We prepare the linking of city networks
- We launched CMS

Data boxes

Authorised conversion

What is a data box?

- A deposit site intended for
 - the delivery of documents and data between public authorities
 - the performance of acts with respect to public authorities
- Its opening is mandatory for
 - public authorities and territorial self-administration units
 - legal persons
- It may be opened by
 - natural persons, natural persons engaged in business

Document Delivery

A document sent to the data box shall be deemed delivered:

- at the time of data box login by a person with authorised access to the delivered message
- if the authorised person fails to log in within 10 days from the delivery to the databox, the document shall be deemed delivered on the last day of this time limit

Provision of collaboration between the Documentary services and ISDS

- signed Memorandum on Co-operation between the Ministry of the Interior and representatives of manufacturers of electronic documentary services as regards the linking of data boxes and documentary services

Autorised Conversion

- The conversion puts the electronic and paper forms of a document on an equal footing
- A conversion output has the same legal effects as its verified copy

MINISTERSTVO VNITRA
ČESKÉ REPUBLIKY

What happens after July 1, 2009?

- **In the office, mail will arrive in a data box**
 - from another office
 - from legal persons
 - from natural persons engaged in business and from natural persons
- **Offices will send mail from their data boxes**
 - to other offices
 - to a number of legal persons
 - to natural persons engaged in business and to natural persons

MINISTERSTVO VNITRA
ČESKÉ REPUBLIKY

Quo vadis, eGON?

Basic registers

Present State

- Fragmentation, ambiguity and multiplicity in the maintenance of key public administration databases
- Inability to share data as kept in the existing files
- No reliable data are available
- The citizen is forced to repeatedly provide evidence to the data kept on his/her person

Reference Data

- **Reference data** shall be deemed credible
 - authorities will not need to check their accuracy and validity, unless the opposite is proved

MINISTERSTVO VNITRA
ČESKÉ REPUBLIKY

Personal Data Protection

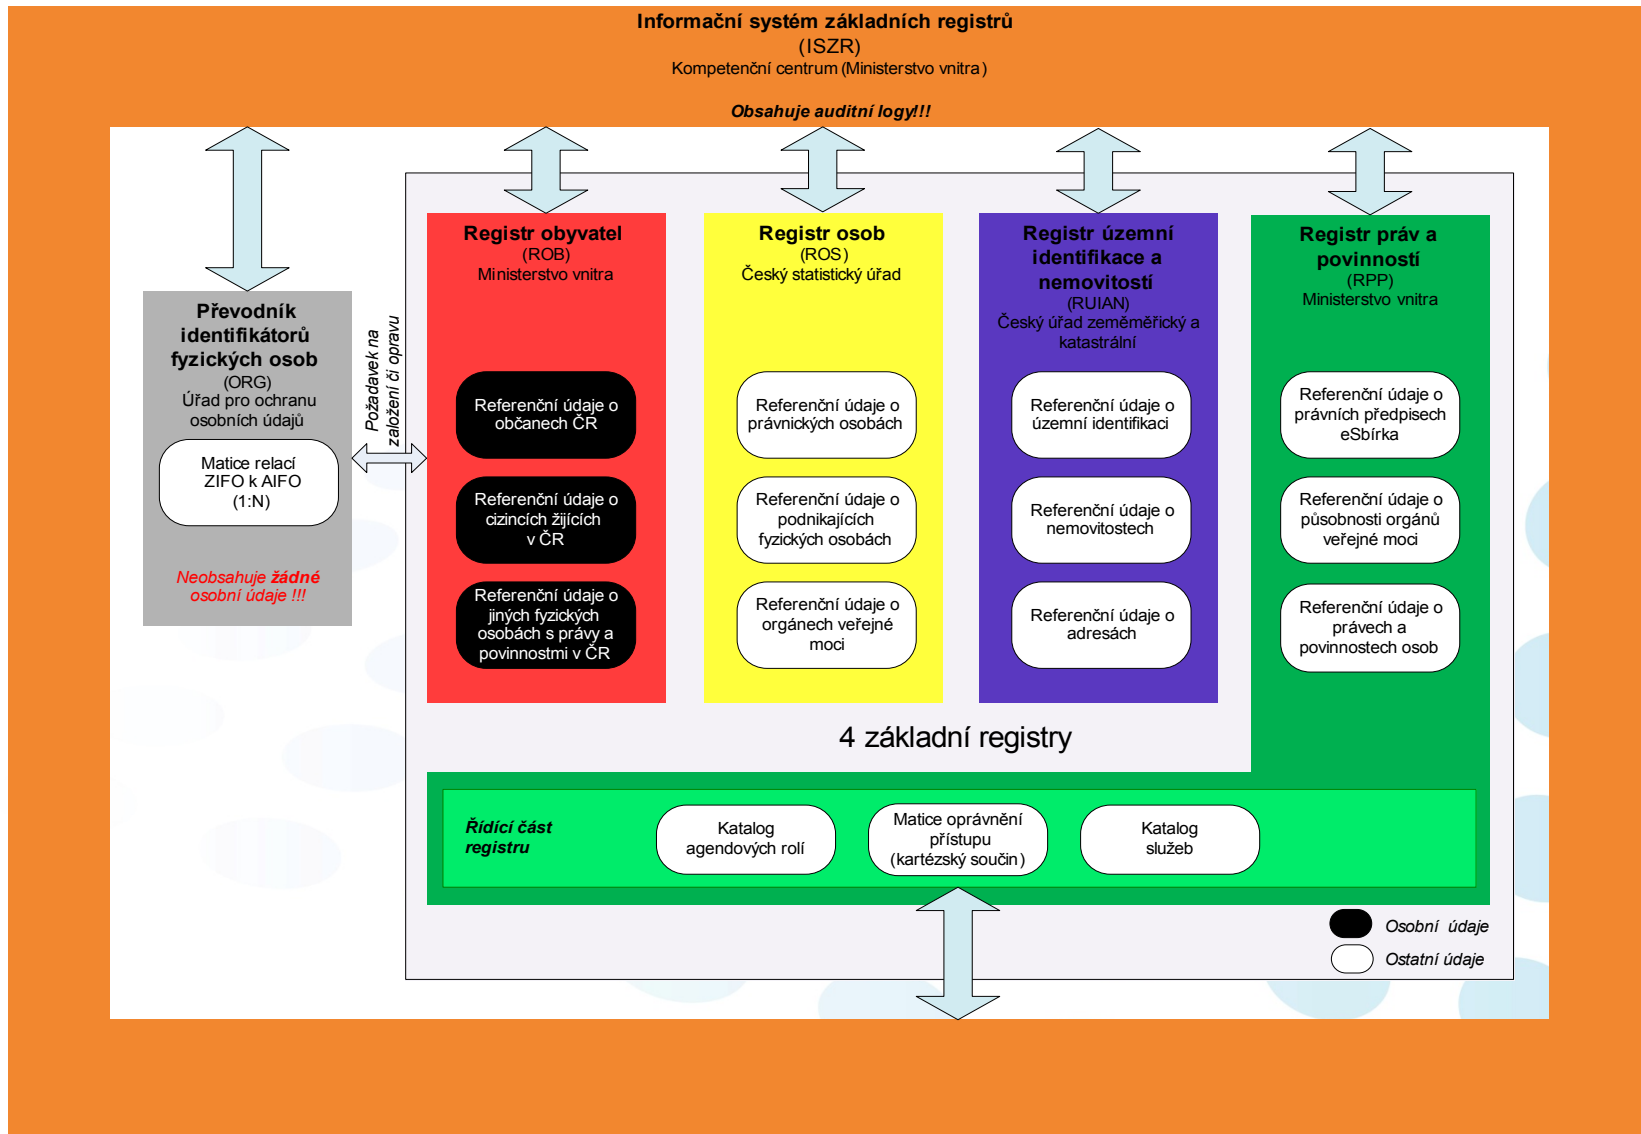

- Introduction of a system of agenda identifiers of natural persons derived from the agenda code and the source identifier of the natural person
 - use of a one-way function; from the agenda identifier, the source identifier cannot be derived
- Each officer has access only to personal data necessary for the administration of his/her own agenda

System of Basic Registers

- RUIAN - basic register of territorial identification, addresses and properties
- ROB - basic citizens` register
- ROS - basic persons` register
- RPP - basic register of rights and obligations
- ISZR - Information system of basic registers

Other Ministry's projects in the area of ICT

- Electronic identity card (eOP)
- eSbírka (eCollection)
- eLegislativa (eLegislation)
- National digital archives
- Digital map of public administration (DMVS, Memorandum 7mi)
- Co-operation with self-administration units:
 - ePUSA
 - VIRTUOS
 - Extended hand
 - Type projects
